

## **Pest Control Notice**

Your home has been scheduled for treatment either for preventative purposes, or to address a pest issue on

Date : \_\_\_\_\_

For preparation, please remove all items possible from both the kitchen and bathroom cabinets for the service. Make extra effort to maintain a clean kitchen and living area so as not to attract or worsen any possible pest issues.

Be prepared to vacate the treated areas (including pets) for up to 2-3 hours after the treatment for products to dry. Cover aquariums/fish tanks.

Clean food prep surfaces and exposed food utensils before use. Make certain cabinets are completely dry before placing items back inside.

Do not use any over-the-counter pesticides in an attempt to control current pest issues ; instead please contact the office for professional treatment!

Your home may be scheduled for follow-up service  
7 – 14 days following this service.

Thank you for your cooperation in this service! Working together as a team we will eliminate pest issues as soon as possible.

Please also note there could be a fee related to refusal of service or non-preparation.
