

Pest Control Notice

Your home has been scheduled for treatment either for preventative purposes, or to address a pest issue on

DATE : _____

For preparation, please remove all items possible from both the kitchen and bathroom cabinets so the pest professional can do the best job possible. Also maintain a clean kitchen and living area so as not to attract or worsen any possible pest issues.

You do not need to leave your home for this treatment ; all products are labeled safe for interior use. Feel free to clean surfaces & counters after products are dry before placing items back inside the cabinets.

Please do not use any over-the-counter pesticides in an attempt to control any current pest issues ; instead please contact the office for professional treatment. Your home may be scheduled for follow-up treatment 7 – 14 days from this service.

Thank you for your cooperation in this service! Please also note there could be a fee related to refusal of service or non-preparation
